INTRODUCTION TO EMERGENCY MANAGEMENT

Prevent

Prepare

Respond

Recover

OBJECTIVE

This course is designed to provide personnel with an overview and understanding of the concepts, principles and processes involved in Emergency Response, Emergency Management and Crisis Management in a corporate environment.

EXPECTED OUTCOMES

As a result of this course, participants should be able to:

- Understand the nature of emergencies and crises;
- Understand the various levels of management and the delineation of corresponding roles and responsibilities;
- Identify some basic tools and processes that will better enable participants to respond to an emergency at an appropriate level; and
- Have an appreciation of an emergency management structure and the relevance of emergency management policy, plans and procedures.

TRAINING STRATEGY

Theoretical training sessions on general emergency management followed by a practical desktop scenario so that participants can put in to practice what they have learnt.

KEY SUBJECT AREAS

- Defining emergencies
- Emergency and corporate issues
- Management strategies and processes
- Training and competence

DESIGNED FOR

This course is designed as a basic or pre-requisite course for all personnel who may be involved in emergency response or management in a corporate environment. It should be attended by personnel from all risk industries.
